Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. Claims 1-3, 5-11, 12-20, 23, 24, 26, 28, 30-32, 35-37, 39-47, 49 and 50 are rejected under 35 U.S.C. 103(a) as being unpatentable over Guo et al. US 6,713,539.
2. The rejection under 35 USC 103 set forth in the paper mailed December 12, 2005 is deemed proper and is herein repeated.
3. Applicants newly amended claims and the remarks filed therewith have been fully considered but have been found not persuasive.
4. The claims have been amended to recite the language "consisting essentially of" in referring to the method and composition formed therefrom. Applicants argue that the prior art includes a polar organic compound and that the "consisting essentially of" language excludes this ingredient and distinguishes the claims from the prior art. This is not persuasive. The "consisting essentially of" language excludes ingredients which would materially change the basic and novel characteristics of the claimed invention. It is not clear, and applicant has not identified, how to incorporation of the polar organic compound would materially change the basic and novel characteristics of the claimed invention. Further, the examiner maintains that the addition of a polar organic compound to the claimed invention would function in a similar manner to that of the prior art.
5. In the event that the claims could be interpreted so as to exclude the polar organic compound, the claims remain obvious. The courts have well established that it is prima facie obvious to leave out an ingredient and lose it known function.

Art Unit: 1713

6. Applicants should note that claim 38 is missing and there is no identifier.

Clarification is required.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
